100 Ricette Per Marmellate, Gelatine E Conserve

New York Times Bestseller A New York Times Best Cookbook of Fall 2018? “An indispensable manual for home cooks and pro chefs.” —Wired At Noma—four times named the world’s best restaurant—every dish includes some form of fermentation, whether it’s a bright hit of vinegar, a deeply savory miso, an electrifying drop of garum, or the sweet intensity of black garlic. Fermentation is one of the foundations behind Noma’s extraordinary flavor profiles. Now René Redzepi, chef and co-owner of Noma, and David Zilber, the chef who runs the restaurant’s acclaimed fermentation lab, share never-before-revealed techniques to creating Noma’s extensive pantry of ferments. And they do so with a book conceived specifically to share their knowledge and techniques with home cooks. With more than 500 step-by-step photographs and illustrations, and with every recipe approachably written and meticulously tested, The Noma Guide to Fermentation takes readers far beyond the typical kimchi and sauerkraut to include koji, kombuchas, shoyus, misos, lacto-ferments, vinegars, garums, and black fruits and vegetables. And—perhaps even more important—it shows how to use these game-changing pantry ingredients in more than 100 original recipes. Fermentation is already building as the most significant new direction in (and health). With The Noma Guide to Fermentation, it’s about to be taken to a whole new level.

C’è solo una causa per il sovrappeso: la sovralimentazione! Le cause della sovralimentazione sono molteplici; e l'identificazione del motivo per cui si continua a stipare nello stomaco più cibo del necessario è un requisito fondamentale per la "cura" dell'obesità. Questo libro innovativo rappresenta un progresso senza precedenti nella lotta contro l'eterno problema dell'obesità. L'autrice si è prefissa il compito di informare i lettori in sovrappeso fatti noti riguardanti la loro situazione: perché sono in sovrappeso, perché questo eccesso di peso è pericoloso, perché non è mai troppo tardi per eliminare il tessuto superfluo e, infine, come ottenere la riduzione desiderata in modo sicuro e sano. Nel discutere l'obesità, l'autrice evita la tentazione di fare discorsi sulla stitichezza, la fatica, le diete faddiste, ecc. Intende che il testo si applica solo al lettore interessato a perdere peso. Un punto chiaro: la persona obesa deve stare attenta alla sua dieta da ora e per sempre. Questa è una semplice ovvietà, eppure è tanto necessaria quanto dire a un alcolizzato bonificato che in futuro non potrà imbeversi impunemente dalla coppa che rallegra. La domanda è: quanto vuoi essere magra?

- Optimizing the use of human resources in human ways - New and innovative organizational forms

"There are folks in Alaska who claim the staff of life in their sourdough pots is more than 40 years old or date it to the time when Fairbanks was a mining town. Handwritten to match the old-timers' recipes, this book includes directions for several starters that can ripen in varying times, three days to one year"--Amazon.com.

- A book about the pleasure of baking your own bread using natural sourdough and healthy ingredients - Includes 90 taste-tested recipes Bread making is a skill, but it is also a pleasure, rooted in traditions that have nurtured generations. Sourdough, pasta madre in Italian, is one of bread-baking's most popular variations with its signature tang and unique health benefits. It is also one of the easiest and most natural, its starter made from flour, water, and time. Riccardo Astolfi has mastered the art of baking with sourdough and here collects 90 taste-tested recipes for breads, as well as sweets and savories such as brioche, sweet buns, traditional panettone, pancakes, bagels, pizza and more. Each recipe calls for organic and locally available ingredients and is tested for the home kitchen. Contents: Introduction; Everyday recipes (breakfast, snacks and pizzas); Festive recipes.

You've heard it from doctors, nutritionists, and your mom: breakfast is the most important meal of the day. It's also one of the most diverse, varying greatly from family to family and region to region, even while individuals tend to eat the same thing every day. While Americans traditionally like to chow down on eggs, cereal, and doughnuts, the Japanese eat rice and miso soup, and New Zealanders enjoy porridge. But while we know bacon and sausage links belong alongside pancakes and waffles in the early morning hours, we don't know how breakfast came to be. Taking a multifaceted approach to the story of the morning meal, The Breakfast Book collects narratives of breakfast in an attempt to pin down the mottled history of eating in the A.M. In search of what people have thought and written—and tasted—about breakfast, Andrew Dalby traces the meal's origins back to the Neolithic revolution. He follows the trail of toast crumbs from the ancient Near East and classical Greece to modern Europe and across the globe, rediscovering stories of breakfast in three thousand years of fiction, memoirs, and art. Using a multitude of entertaining breakfast facts, anecdotes, and images, he reveals why breakfast is so often the backdrop for unexpected meetings, why so many people eat breakfast out, and why this often silent meal is also so reassuring. Featuring a selection of historic and contemporary breakfast recipes from around the world, The Breakfast Book is the first book to explore the history of this inimitable meal and will make an ideal morning companion to crumpets, deviled kidneys, and spanakopita alike.

La verdura va gustata quando è stagione, si può però cercare di rinchiuderne i segreti e trasformarla in gusti forti e delicati, godendo nel compiere un gesto antico come l'uomo: conservare il cibo per la stagione fredda. First published in 1891, Pellegrino Artusi's La scienza in cucina e l'arte di mangier bene has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor – humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa.

Explore the hyperlocal approach of acclaimed chef Norbert Niederkofler, from his home in South Tyrol in the Italian Alps to the world and back. Norbert Niederkofler has dedicated his life and work to South Tyrol's culture and cuisine. He translates the beauty and vivid character of the mountains into his dishes at St. Hubertus, the only Michelin 3-starred restaurant with completely regional cuisine. Niederkofler's philosophy, summarized as "Cook the Mountain," is to choose local and seasonal ingredients only after talking to the producers and growers in person and to honor the ingredients by keeping food waste to a minimum. In the first volume of this 2-book set, brilliant photographs reveal both unspoiled landscapes and the agricultural and architectural changes humans have made in the past millennia. Striking portraits of locals capture the people and producers Niederkofler works with. Breathtaking food photography conveys the stunning ingredients and creations that Niederkofler develops. The second volume includes 80 of Niederkofler's recipes, divided into the four seasons to reflect his ethos of sustainability. Taken together, Cook the Mountain showcases the unique terroir and cuisine of South Tyrol through the eyes of Niederkofler, who has embraced his home and given it a new culinary identity.

In a lively gastronomical tour around the world and through the millennia, Uncorking the Past tells the compelling story of humanity's ingenious, intoxicating search for booze. Following a tantalizing trail of archaeological, chemical, artistic, and textual clues, Patrick E. McGovern, the leading authority on ancient alcoholic beverages, brings us up to date on what we now know about the creation and history of alcohol, and the role of alcohol in society across cultures. Along the way, he integrates studies in food and sociology to explore a provocative hypothesis about the integral role that spirits have played in human evolution. We discover, for example, that the cereal staples of the modern world were probably domesticated in agrarian societies for their potential in fermenting large quantities of alcoholic beverages. These include the delectable rice wines of China and Japan, the corn beers of the Americas, and the millet and sorghum drinks of Africa. Humans also learned how to make mead from honey and wine from exotic fruits of all kinds: even from the sweet pulp of the cacao (chocolate) fruit in the New World. The perfect drink, it turns out-whether it be mind-altering, medicinal, a religious symbol, liquid courage, or artistic inspiration-has not only been a profound force in history, but may be fundamental to the human condition itself. This coffee table book will sate the curiosity of any armchair historian interested in the long history of food and wine.

When a popular celebrity chef is found murdered on the steps of the Oslo police headquarters, police investigator Billy T. and long-absent Hanne Wilhelmsen team up for an investigation that reveals that few people really knew the victim or his mysterious activities.

In a small North Carolina town, a mysterious and beautiful woman running from her past slowly falls for a kind-hearted store owner . . . until dark secrets begin to threaten her new life. When a mysterious young woman named Katie appears in the small North Carolina town of Southport, her sudden arrival raises questions about her past. Beautiful yet self-effacing, Katie seems determined to avoid forming personal ties until a series of events draws her into two reluctant relationships: one with Alex, a widowed store owner with a kind heart and two young children; and another with her plainspoken single neighbor, Jo. Despite her reservations, Katie slowly begins to let down her guard, putting down roots in the close-knit community and becoming increasingly attached to Alex and his family. But even as Katie begins to fall in love, she struggles with the dark secret that still haunts and terrifies her . . . a past that set her on a fearful, shattering journey across the country, to the sheltered oasis of Southport. With Jo's empathetic and stubborn support, Katie eventually realizes that she must choose between a life of transient safety and one of riskier rewards . . . and that in the darkest hour, love is the only true safe haven.

Le vicende e le passioni di Isabella de' Medici Orsini, duchessa di Bracciano nella seconda metà del XVI secolo, sono il filo rosso che attraversa il testo tenendo uniti due temi fondamentali. Il primo vuole raccontare questa donna che, tra vicissitudini famigliari e intrighi di corte, seppe coltivare le passioni per la bellezza, le arti e l'alchimia. L'altro tema dà ampio spazio alla gastronomia, alla cosmesi e ai rimedi terapeutici, utilizzati a corte, e ne completa l'approccio multisensoriale. Si apre con una selezione di ricette rinascimentali, già messe a punto dall'autrice nel corso di numerosi eventi in tema, per portare l'attenzione alla tavola nel ducato degli Orsini. Seguendo lo schema dei manoscritti degli speziali, ripropone, a volte anche in lingua originale, ricette di balsami, vini medicinali, belletti, afrodisiaci e preparazioni di pasticceria. Sfrutta l'approccio olfattivo e gustativo per condurre il lettore nell'atmosfera del tempo e prende, così, forma una sorta di ricettario che, arricchito da curiosità e semplici istruzioni, consente di realizzare in casa i preparati. Un viaggio tra emozioni, profumi e sapori che trascende la dimensione del tempo.

Capture the flavors of Italy with over 150 recipes for conserves, pickles, sauces, liqueurs, and more in this “engagingly informative” guide (Elizabeth Minchilli, author of Eating Rome). The notion of preserving shouldn’t be limited to American jams and jellies, and in this book, Domenica Marchetti puts the focus on the ever-alluring flavors and ingredients of Italy. There, abundant produce and other Mediterranean ingredients lend themselves particularly well to canning, bottling, and other preserving methods. Think of marinated artichokes in olive oil, classic giardiniera, or, of course, the late-summer tradition of putting up tomato sauce. But in this book we get so much more, from Marchetti’s travels across the regions of Italy to the recipes handed down through her family: sweet and sour peppers, Marsala-spiked apricot jam, lemon-infused olive oil, and her grandmother’s amarene, sour cherries preserved in alcohol. Beyond canning and pickling, the book also includes recipes for making cheese, curing meats, infusing liqueurs, and even a few confections, plus recipes for finished dishes so you can savor each treasured jar all year long. “Pack artichokes, peppers and mushrooms in oil. Make deliciously spicy pickles from melon. Even limoncello, mostarda and confections like torrone can come straight from your kitchen... The techniques may have been passed down by generations of nonnas, but they knew what they were doing.”—Florence Fabricant, The New York Times “Marchetti elevates preserved food from the role of condiment to center stage.”—Publishers Weekly

Classic French preserving techniques updated for a modern audience. A vibrant package crammed with every recipe youâ??ll ever need to conserve, salt, pickle, and smoke your own fresh produce. Written by Ginette Mathiot and revised and updated by Clotilde Dusoulier of Chocolate and Zucchini. Preserving is an incredibly popular trend in food books and is growing. This book stands out as it includes techniques for smoking, pickling, and making charcuterie, allowing both home cooks and chefs to learn new preserving techniques.

Massimo Montanari draws readers into the far-flung story of how local and global influences came to flavor Italian identity. The fusion of ancient Roman cuisine—which consisted of bread, wine, and olives—with the barbarian diet—rooted in bread, milk, and meat—first formed the basics of modern eating across Europe. From there, Montanari highlights the importance of the Italian city in the development of gastronomic taste in the Middle Ages, the role of Arab traders in positioning the country as the supreme producers of pasta, and the nation's healthful contribution of vegetables to the fifteenth-century European diet. Italy became a receiving country with the discovery of the New World, absorbing corn, potatoes, and tomatoes into its national cuisine. As disaster dispersed Italians in the nineteenth century, new immigrant stereotypes portraying Italians as "macaroni eaters" spread. However, two world wars and globalization renewed the perception of Italy and its culture as unique in the world, and the production of food constitutes an important part of that uniqueness.
