

## Blackstone's EU Treaties

Avizandum Statutes provide undergraduates at Scottish universities with legislation and, where appropriate, other core materials in one convenient book. This volume collects the materials that students on Scots public Law will need for their courses and exams. Celebrating over 30 years as the market-leading series, Blackstone's Statutes have an unrivalled tradition of trust and quality. With a rock-solid reputation for accuracy, reliability, and authority, they remain first-choice for students and lecturers, providing a careful selection of all the up-to-date legislation needed for exams and course use.

This volume gives coverage of EU law containing all the up-to-date statutes relevant to undergraduate law degrees. It gives unannotated primary and secondary legislation allowing students to take it into examinations. The first new textbook to publish since Brexit, EU Law in the UK tackles EU law with a post-Brexit perspective interwoven throughout. It takes a uniquely contextual approach designed to enliven the learning experience, support understanding, and help students appreciate the relevance and impact of EU law. Written in a concise and accessible style, and supported by lively academic analysis, the author carefully guides students through key complexities, issues, and debates. EU Law in the UK not only supports students to understand the core elements of EU institutional and substantive law, but also to critically examine the implications on UK law of the UK's decision to leave the EU. The book's unique contextual approach offers a highly practical and engaging way to learn about EU law. The context is set at the start of each chapter by way of scenarios including real quotes from politicians, parliamentary reports, and fictional situations. Throughout the chapters, students are then invited to apply legal principles to these scenarios. This approach serves to reinforce and enliven students' learning. This book introduces students to the great debates in EU law. Rather than simply presenting traditional approaches that provide descriptions (often in historical order) of substantive and constitutional elements of Union law, this book clusters material around these debates in an engaging and lively way. By offering concise analyses of core dilemmas and tensions in EU law, the book provides a different kind of introduction, one that helps students place the discussions within a broader context and narrative. The authors have found in their teaching that students often struggle with individual aspects and materials without understanding broader narratives, which are traditionally developed in monographs or journal articles that are beyond the reach of undergraduate readers.

Do you know the differences between the national legal systems and those of the EU? Struggling to make sense of free movement? EU Law Directions tackles these and many more questions, introducing you to this exciting area of law. The Directions series has been written with students in mind. The ideal guide as they approach the subject, understanding of the topic: just the right amount of detail conveyed clearly DT Understand the law in context: with scene-setting introductions and highlighted case extracts, the practical importance of the law becomes clear DT Identify when and how to critically evaluate the law: they'll be introduced to the key areas of debate and given visually engaging learning and self-testing features aid understanding and help students tackle assessments with confidence DT Elevate their learning: with the ground-work in place you can aspire to take your learning to the next level, with direction provided on how to go further This text is also accompanied by a free Online Resource Centre showing the key moments in EU legal history - An interactive map illustrating the development of the EU and providing essential background knowledge - Self-test questions with instant feedback - Video clips from the European Commission - Suggested approaches to end of chapter questions - Study and exam tips - Updates to the text. This textbook on European constitutional law offers a coherent and scholarly analysis presented within a clear structure.

In this edition of the European Basic Treaties you will find the full texts of the Treaty on European Union, the Treaty on the Functioning of the European Union and the EU Charter of Fundamental Rights. It also contains the provisions of the Treaty of Amity and Consular Privileges, the Treaty of the Privileges of the Institutions, the Treaty of the Privileges of the Members of the Commission and the Treaty of the Privileges of the Members of the Court of Justice. This Commentary provides an article-by-article summary of the TEU, the TFEU, and the Charter of Fundamental Rights, offering a quick reference to the provisions of the Union and how they are interpreted and applied in practice. Written by a team of contributors drawn from the Legal Service of the European Commission and academia, it provides academics seeking fast access to the Treaties and current practice. The Commentary follows a set structure, offering a short overview of the Article, the Article text itself, a key references list including essential case law and legislation, and a structured commentary on the Article itself. The editors and contributors combine experience in the field with a variety of EU law subjects.

A considered balance of depth, detail, context, and critique, Directions books offer the most student-friendly guide to the subject: they empower students to evaluate the law, understand its practical application, and approach assessments with confidence.

"EU Law" covers both the institutions of the EU and the substantive law they produce. The new constitution is introduced, its aims and the reasons for its negotiation. Pedagogical features have been incorporated into this edition making the text easier to navigate.

Blackstone's Statutes have a 25-year tradition of trust and quality, and a rock-solid reputation for accuracy, reliability, and authority. Content is extensively reviewed to ensure a close map to courses. Blackstone's Statutes lead the market: consistently recommended by lecturers and relied on by students for exam and course use. Each title is: DT Trusted: ideal for exam use DT Practical: find what you need instantly DT Reliable: current, comprehensive coverage DT Relevant: content based on detailed market feedback Visit [www.oxfordtextbooks.co.uk/orc/statutes/](http://www.oxfordtextbooks.co.uk/orc/statutes/) for accompanying online resources, including video guides to reading and interpreting statutes, web links, a timeline of the EU, additional legislation, exam tips, and an interactive sample Act of Parliament.

This eagerly awaited new edition has been significantly revised after extensive user feedback to meet current teaching requirements. The first major textbook to be published since the rejuvenation of the Lisbon Treaty, it retains the best elements of the first edition – the engaging, easily understandable writing style, extracts from a variety of sources showing the creation, interpretation and application of the law and comprehensive coverage. In addition it has separate chapters on EU law in national courts, governance and external relations reflecting the new directions in which the field is moving. The examination of the free movement of goods and competition law has been restructured. Chapter introductions clearly set out what will be covered in each section allowing students to approach complex material with confidence and detailed further reading sections encourage further study. Put simply, it is required reading for all serious students of EU law.

This textbook is written in an informal and engaging manner with an emphasis on explaining the key topics covered in EU courses with clarity. End of chapter questions encourage students to test and reinforce their own learning.

Cases and Materials on EU Law is a highly respected EU law text and the only cases and materials book in the field. With his clear, engaging writing style, Stephen Weatherill presents the main constitutional and substantive areas of EU law alongside the themes and principles that have shaped the development of the EU and its policies. The 12th edition provides a wealth of carefully selected case law alongside engaging extracts and materials to help explain the complexities of EU law in a contextualized and thought-provoking manner. Insightful author notes and questions accompany each extract, providing valuable additional detail to challenge understanding and encourage students to engage critically with the material. This title is accompanied by an Online Resource Centre, providing students with extra learning materials including: - an interactive map of Europe - a timeline of the EU - video footage - a guide to further web resources - a table of equivalences - legal updates - guidance for lecturers on using the book when teaching.

Since its formation the European Union has expanded beyond all expectations, and this expansion seems set to continue as more countries seek accession and the scope of EU law expands, touching more and more aspects of its citizens' lives. The EU has never been stronger and yet it now appears to be reaching a crisis point, beset on all sides by conflict and challenges to its legitimacy. Nationalist sentiment is on the rise and the Eurozone crisis has had a deep and lasting impact. EU law, always controversial, continues to perplex, not least because it remains difficult to analyse. What is the EU? An international organization, or a federation? Should its legal concepts be measured against national standards, or another norm? The Oxford Handbook of EU Law illuminates the richness and complexity of the debates surrounding the law and policies of the EU. Comprising eight sections, it examines how we are to conceptualize EU law; the architecture of EU law; making and administering EU law; the economic constitution and the citizen; regulation of the market place; economic, monetary, and fiscal union; the Area of Freedom, Security, and Justice; and what lies beyond the regulatory state. Each chapter summarizes, analyses, and reflects on the state of play in a given area, and suggests how it is likely to develop in the foreseeable future. Written by an international team of leading commentators, this Oxford Handbook creates a vivid and provocative tapestry of the key issues shaping the laws of the European Union.

A modern approach to the institutional and substantive law of the EU. It provides a comprehensive introduction and combines a popular text, cases, and materials format with a range of supportive learning features.
