*The New York Times bestselling account of one of history's most brutal -- and forgotten -- massacres, when the Japanese army destroyed China's capital city on the eve of World War II In December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese civilians and soldiers were systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode. "Chang vividly, methodically, records what happened, piecing together the abundant eyewitness reports into an undeniable tapestry of horror."*

A dead boy (Pallas) and the death of a girl (Camilla) loom over the opening and the closing part of the eleventh book of the Aeneid. Following the savage slaughter in Aeneid 10, the book opens in a mournful mood as the warring parties revisit

yesterday's killing fields to attend to their dead. One casualty in particular commands attention: Aeneas' protégé Pallas, killed and despoiled by Turnus in the previous book. His death plunges his father Evander and his surrogate father Aeneas into heart-rending despair – and helps set up the foundational act of sacrificial brutality that caps the poem, when Aeneas seeks to avenge Pallas by slaying Turnus in wrathful fury. Turnus' departure from the living is prefigured by that of his ally Camilla, a maiden schooled in the martial arts, who sets the mold for warrior princesses such as Xena a Wonder Woman. In the final third of Aeneid 11, she wreaks havoc not just on the battlefield but on gender stereotypes and the conventions of the epic genre, before she too succumbs to a premature death. In the portions of the book selected for discussion here, Virgil offers some of his most emotive (and disturbing) meditations on the tragic nature of human existence – but also knows how to lighten the mood with a bit of drama. This course book offers the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and the most recent scholarly thought. King's College, Cambridge, has generously contributed to this publication.

Our fear of the world ending, like our fear of the dark, is ancient, deep-seated and perennial. It crosses boundaries of space and time, recurs in all human communities and finds expression in every aspect of cultural production - from pre-historic cave paintings to high-tech computer games. This volume examines historical and imaginary scenarios of apocalypse, the depiction of its likely triggers, and imagined landscapes in the aftermath of global destruction. Its discussion moves effortlessly from classic novels including Aldous Huxley's *Brave New World*, George Orwell's *Nineteen Eighty-Four* and Margaret Atwood's *Oryx and Crake*, to blockbuster films such as *Blade Runner*, *Armageddon* and *Invasion of the Body Snatchers*. Lisboa also takes into account religious doctrine, scientific research and the visual arts to create a penetrating, multi-disciplinary study that provides profound insight into one of Western culture's most fascinating and enduring preoccupations.

The problem is that out-of-sight doesn't necessarily mean out of mind, and it's Tate who's now haunted by his decision and memories of Hennessy. \*\*\* Hennessy Hanes knows better than anyone not everything is always as it appears to be. After years of being on the receiving end of her squeaky-clean preacher father's abuse, she seizes an opportunity to leave it all behind and runs. Her only regret is that in walking away she loses any chance with the one person who tried to save her. \*\*\* Fast forward ten years, and they're both back where they started. Tate was never a good boy, and it turns out that the man he's now grown into isn't all that much better. Anger is a living, breathing part of him, and there's a court order forcing him to seek help from the one person he's never forgotten. Hennessy never thought she'd see Tate Casey again, and certainly not on her couch. But now it's her turn to save him, and there

are rules she must follow as his psychologist, not to mention a court order instructing her to help him manage his anger. If she doesn't follow those rules, he'll end up back in jail. Tate Casey has never been a man who followed the rules, and Hennessy is no longer the straight-laced, timid preacher's daughter she once was. His hands may be tied, so it looks like for the first time in Hennessy's life, she'll be the one breaking the rules for the chance to finally get what she's always wanted. Him. Finally, we can talk about Fight Club! or, A physical and philosophical mediation on why we are drawn to fight each other for sport, what happens to our bodies and brains when we do, and what it all means Anyone with guts or madness in him can get hit by someone who knows how; it takes a different kind of madness, a more persistent kind, to stick around long enough to be one of the people who does the knowing. Josh Rosenblatt was thirty-three years old when he first realized he wanted to fight. A lifelong pacifist with a philosopher's hatred of violence and a dandy's aversion to exercise, he drank to excess, smoked passionately, ate indifferently, and mocked physical activity that didn't involve nudity. But deep down inside there was

always some part of him that was attracted to the idea of fighting. So, after studying Muay Thai, Krav Maga, Brazilian jiu-jitsu, and boxing, he decided, at age forty, that it was finally time to fight his first—and only—mixed martial arts match: all in the name of experience and transcending ancient fears. An insightful and moving rumination on the nature of fighting, *Why We Fight* takes us on his journey from the bleachers to the ring. Using his own training as an opportunity to understand how the sport illuminates basic human impulses, Rosenblatt weaves together cultural history, criticism, biology, and anthropology to understand what happens to the human body and mind when under attack, and to explore why he, a self-described “cowardly boy from the suburbs,” discovered so much meaning in putting his body, and others’, at risk. From the psychology of fear to the physiology of pain, from Ukrainian shtetls to Brooklyn boxing gyms, from Lord Byron to George Plimpton, *Why We Fight* is a fierce inquiry into the abiding appeal of our most conflicted and controversial fixation, interwoven with a firsthand account of what happens when a mild-mannered intellectual decides to step into the ring for his first real showdown.

In 1974 in Kinshasa, Zaïre, two African American boxers were paid five million dollars apiece to fight each other. One was Muhammad Ali, the aging but irrepressible “professor of boxing.” The other was George Foreman, who was as taciturn as Ali was voluble. Observing them was Norman Mailer, a commentator of unparalleled energy, acumen, and audacity. Whether he is analyzing the fighters’ moves, interpreting their characters, or weighing their competing claims on the African and American souls, Mailer’s grasp of the titanic battle’s feints and stratagems—and his sensitivity to their deeper symbolism—makes this book a masterpiece of the literature of sport. Praise for *The Fight* “Exquisitely refined and attenuated . . . [a] sensitive portrait of an extraordinary athlete and man, and a pugilistic drama fully as exciting as the reality on which it is based.”—*The New York Times* “One of the defining texts of sports journalism. Not only does Mailer recall the violent combat with a scholar’s eye . . . he also makes the whole act of reporting seem as exciting as what’s occurring in the ring.”—GQ “Stylistically, Mailer was the greatest boxing writer of all time.”—Chuck Klosterman, *Esquire* “One of Mailer’s finest
