An incident near the desolate Chhinnamasta temple on the rocky riverbank of Rajrappa leads to the death of Mahesh Chowdhury, the head of a Hazaribagh family. Adding to the mystery are a set of coded diaries, a valuable stamp collection that is missing and a tiger that is roaming the streets of Hazaribagh. One of Feluda's most intriguing adventures, this shows the master sleuth at his best.

The Scions were the four richest, most powerful guys at Valesca Academy, and they ruled the school with iron fists. Everyone wanted to date them or be them...everyone, that is, except Maya Lindberg, who just wanted to avoid them until she could graduate. She almost succeeded, until an ill-advised outburst on her part put her right in the Scions' path. Just like that, one became her fake boyfriend, one her unwanted matchmaker, one her guardian angel, and the one she couldn't stand the most? Yeah, he's her new housemate. All I've Never Wanted is a romantic comedy that explores what happens when a girl gets everything she never asked for, including a puppy, a new wardrobe, and, possibly, even true love. Max, Min and Mop go to the fair. Min and Mop win a prize. Will Max win a prize?

and subordination, the role of religion in supporting or opposing the powerful, and the "arts of resistance" by the subordinated-to tackle key issues in the interpretation of Jesus and Paul. All the contributors implicitly or explicitly assume a stance sympathetic with subordinated peoples of the past and present. While all pursue primarily critical literary, historical, and social analysis on New Testament texts in historical contexts, some also examine illuminating historical or contemporary comparative materials. In addition, some even find Scott useful in critical self-examination of scholarly motives, stances, and approaches in relation to texts and their uses. The contributors are Allen Dwight Callahan, Warren Carter, Neil Elliott, Susan M. Elliott, Erik Heen, William R. Herzog II, Richard A. Horsley, Cynthia Briggs Kittredge, and Gerald West. "Nineteen years ago when I started teaching union members at Roosevelt University, I knew very little about labor history and neither did the students. As we went on a mutual journey, I began to learn about labor history through the papers the students wrote. I read and wrote about John Peter Altgeld, Mother Jones, Walter Reuther, A. Philip Randolph and Eugene V. Debs. A. Philip Randolph, a prominent leader in the civil rights movement is almost never referred to in the telling of the civil rights struggle. I decided to tell also about Delores Huerta and Regina Polk, women important to today. These biographies

focus on their contributions to improve the lives of working people." --Bob Breving, teacher at DePaul Labor Education Center in Chicago.

'His book is timely and a triumph. Roberts manages to convey all the reader needs to know about two men to whom battalions of biographies have been devoted' EVENING STANDARD Adolf Hitler and Winston Churchill were two totally opposite leaders - both in what they stood for and in the way in which they seemed to lead. Award-winning historian Andrew Roberts examines their different styles of leadership and draws parallels with rulers from other eras. He also looks at the way Hitler and Churchill estimated each other as leaders, and how it affected the outcome of the war. In a world that is as dependent on leadership as any earlier age, HITLER AND CHURCHILL asks searching questions about our need to be led. In doing so, Andrew Roberts forces us to re-examine the way that we look at those who take decisions for us.

Can an anthropologist help us understand the world of business? Armed with this question, veteran anthropologist Brian Moeran embarks on an in-depth study of cultural production and creative industries in Japan. At once the blundering ethnographer and shrewd observer, Moeran is able to shed light not only on social behavior and human relations in general but, more specifically, on the importance of strategic exchange to all business practices. Moeran's fieldwork, rooted in participant-observation of business life in communities and corporations, leads him to an original theory of how business operates. Culture is not all-powerful, Moeran shows. Instead, social structures strongly influence behavior. At the heart of Moeran's analysis is a firm belief in fieldwork and ethnography - terms much bandied about in business, management and cultural studies, but rarely undertaken in depth. The Business of Ethnography not only provides a useful methodology for people studying or wishing to understand business, but also acts as a clarion call for anthropologists to rethink their discipline beyond traditional fieldwork sites.

the most notorious scandals of recent years talk frankly about the events which transformed their lives. This verbatim play from the writer of Talking To Terrorists and The Arab-Israeli Cookbook uses the subjects' own words to take an entertaining, compassionate and deeply moving look at the different people, from scorned politicians to powerful PRs, expensive prostitutes to disgraced aristocrats, who find themselves caught up in the modern machinery of scandal. Life After Scandal opened at the Hampstead Theatre in September 2007.

After a year of grand adventures touring the classical ruins of Italy and Greece, Iphiginia Bright returned to England to discover that the real excitement was at home. It seems that her Aunt Zoe has fallen victim to a sinister blackmailer and only Iphiginia can hope to stop the culprit before he can do more harm. Her plan is inspired: Imitating history's most legendary beauties--Cleopatra, Helen of Troy, Aphrodite--the former schoolmistress will remake herself, and descend upon London Society as the dazzling mistress of Marcus Valerius Cloud, the infamous Earl of Masters. Rumors hint that the Earl has disappeared at the blackmailer's hands, and by posing as his unknown mistress, Iphiginia is convinced she can ferret out the villain. Overnight, Iphiginia is transformed into a vision with a host of eager admirers, including one she does not expect -- the Earl of Masters

He is everything they say he is... arrogant, attractive, devastatingly seductive, and Iphiginia can't help but be enthralled. But when Marcus agrees to play along with her charade, she doesn't know that the determined earl has plans of his own: to tease and tempt her, until the beautiful deceiver becomes more than his mistress in name only.

The image of open working and living spaces flooded with light has, more than any other, become fixed in our minds as a symbol of modernity and the spirit of the times. While the workplace has always been the focus of ergonomic studies and optimization with respect to a good provision of

daylight, large glass surfaces have now become the order of the day for living spaces as well. But does this automatically make for better illumination? Taking this question as its starting point, the publication Illuminating thematizes central aspects of light planning, including the connection between the provision of daylight and architectural design, building orientation, the nature of the facade, the ground plan, comfort, and the proportions and atmosphere of rooms. In the process, general characteristics and fundamental principles as well as subtle facets of an intelligent treatment of daylight are discussed and critically examined within an expanded architecture- and culture-historical context.

Advice to a New College Student focuses on the process of learning and how college-level learning may be different from a student's previous learning frame of reference. National Tactical Officers Association, and who authored one of the first SWAT textbooks in 1982, now brings forth a unique book that not only captures the substantive information required by new SWAT commanders but also its culture. Successful resolution of critical incidents is most often the result of basic concepts and principles implemented by knowledgeable, experienced and well-trained personnel under the direction of decisive leaders, but new SWAT commanders may not have benefited from coming through the ranks and SWAT pipeline and could be at a considerable disadvantage as they accept command. In a manner not previously used for SWAT education and training, Captain Kolman introduces the officer to substantive information, culture and a methodology to approach various missions. In doing so, the reader is led on an educational journey through a series of dreams that ultimately culminates in a fictitious SWAT Commander successfully resolving a high-risk incident. Each chapter builds on the previous one and allows the hypothetical characters passing through each chapter to evolve in knowledge, judgment and maturity. The book is a testimonial to the need for departments to provide or obtain contemporary, appropriate training for both command and operational personnel, so that working together they can effectively manage and resolve critical incidents with minimal risk to everyone involved. In addition to being a valuable asset to any SWAT school, including commanders, the seasoned operator will find this publication an entertaining and informative review.

heading toward Earth for a perilous rendezvous that occurs every two thousand years. Original.

John Perkins has seen the signs of today's economic meltdown before. The subprime mortgage fiascos, the banking industry collapse, the rising tide of unemployment, the shuttering of small businesses across the landscape are all too familiar symptoms of a far greater disease. In his former life as an economic hit man, he was on the front lines both as an observer and a perpetrator of events, once confined only to the third world, that have now sent the United States—and in fact the entire planet—spiraling toward disaster. Here, Perkins pulls back the curtain on the real cause of the current global financial meltdown. He shows how we've been hoodwinked by the CEOs who run the corporatocracy—those few corporations that control the vast amounts of capital, land, and resources around the globe—and the politicians they manipulate. These corporate fat cats, Perkins explains, have sold us all on what he calls predatory capitalism, a misguided form of geopolitics and capitalism that encourages a widespread exploitation of the many to benefit a small number of the already very wealthy. Their arrogance, gluttony, and mismanagement have brought us to this perilous edge. The solution is not a "return to normal." But there is a way out. As Perkins makes clear, we can create a healthy economy that will encourage businesses to act responsibly, not only in the interests of their shareholders and corporate partners (and the lobbyists they have in their pockets), but in the interests of their employees, their customers, the environment, and society at large. We can create a society that fosters a just, sustainable, and safe world for us and our children. Each one of us makes these choices every day, in ways that are clearly spelled out in this book.

"We hold the power," he says, "if only we recognize it." Hoodwinked is a powerful polemic that shows not only how we arrived at this precarious point in our history but also what we must do to stop the global tailspin.

Clairvoyance means literally nothing more than "clear-seeing," and it is a word which has been sorely misused, and even degraded so far as to be employed to describe the trickery of a mountebank in a variety show. Even in its more restricted sense it covers a wide range of phenomena, differing so greatly in character that it is not easy to give a definition of the word which shall be at once succinct and accurate. It has been called "spiritual vision," but no rendering could well be more misleading than that, for in the vast majority of cases there is no faculty connected with it which has the slightest claim to be honoured by so lofty a name. This book is your guide into the world and secrets of clairvoyance.
