*Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.*

*The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government. Terrorism, sadly, seems here to stay and to stay with a vengeance. It turns out that the United States was not prepared for it and now must play catch-up. In doing so, even agreement on how to define terrorism is in doubt and what to do about it seems beyond comprehension at the moment. This volume presents a broad cross section of analyses of weaknesses and actions in the ongoing battle.*

The Code of Federal Regulations Title 32 contains the codified United States Federal laws and regulations that are in effect as of the date of the publication pertaining to defense and security, including the Armed Forces, intelligence, selective service (the draft), and defense logistics.

Divided into six sections, this title examines Government secrecy (GS) in a variety of contexts, including comparative examination of government control of information, definitions, categories, censorship, ethics, and secrecy's relationship with freedom of information and transparency.

Contains an inventory of evaluation reports produced by and for selected Federal agencies, including GAO evaluation reports that relate to the programs of those agencies.
