

General English Grammar Questions Answers Goldensore

Drawing on descriptive and theoretical advances made in modern linguistics, this elementary textbook provides a succinct step-by-step account of the most important and central English constructions and categories.

Global English Slang brings together nineteen key international experts and provides a timely and essential overview of English slang around the world today. The book illustrates the application of a range of different methodologies to the study of slang and demonstrates the interconnection between the different sub-fields of linguistics. A key argument throughout is that slang is a function played by specific words or phrases rather than a characteristic inherent in the words themselves- what is slang in one context is not slang in another. The volume also challenges received wisdom on the nature of slang: that it is short-lived and that slang is restricted to verbal language. With an introduction by editor Julie Coleman, the topics covered range from Inner City New York slang and Hip Hop Slang to UK student slang and slang in Scotland. Authors also explore slang in Jamaica, Australia, New Zealand, India and Hong Kong and the influence of English slang on Norwegian, Italian and Japanese. A final section looks at slang and new media including online slang usage, and the possibilities offered by the internet to document verbal and gestural slang. Global English Slang is an essential reference for advanced undergraduates, postgraduates and researchers working in the areas of lexicology, slang and World Englishes.

To understand and make the practical use of the grammatical rules is a challenge poised at various competitive exams. Students preparing for various competitive exams need elucidated grammar rules that are explained in a very easy and understandable language. Practical English Grammar & Composition is the hand book and an easy guide to learn English aimed at learning and improving knowledge of grammar and its applicability. In order to make the students conversant with the practical applicability of the grammar rules, sentences depicting the right usage are also given after the rules. A number of solved exercises are also given after the chapters that enable the students test their acquired knowledge. Word Powers section is a unique feature of the book that will play a crucial role in making the students ready to face the competitions ahead.

Provides techniques for achieving high scores on the AP English literature exam and includes two full-length practice tests.

For the educated, this book is an invaluable resource, one that allows for easy reference to any grammatical concept imaginable. The book gives thousands of examples, but it also provides explicit reasoning why we should speak and write following certain patterns. Don't feel like studying for hours to learn a concept? Look here for the diagrams you need to understand why things go where they go in a sentence. Did he act foolish? OR Did he act foolishly? Both answers are here. If you are in college, grad school, or simply interested, you decide what you want to know-your answers are here. Written by two professors who hate to condescend but love to teach, English Grammar and Syntax cuts through the pedantic wasteland.

These exercise sheets give rigorous practice & enhance student's capability to use several concepts of different chapters simultaneously.

The respected phonetician and philologist Henry Sweet (1845-1912) has had a lasting influence on the study and teaching of linguistics, particularly phonetics and Old English. Sweet is also known for being, in part, the inspiration for Henry Higgins in Shaw's Pygmalion. This two-volume work, first published in 1892-8, marks the start of a new tradition in the study of English, although it received little attention in Britain upon its publication. Building on developments in European linguistics, this was the first grammar of English to adopt a scientific approach to the description of language, in particular of phonology. Volume 1 (1892) contains one of the first studies of English phonology, which applies the same rigorous analysis to the spoken language as to the written, as well as detailed descriptions of the parts of speech, accent, and the history of English.
