Forget everything you thought you knew about how to motivate people - at work, at school, at home. It's wrong. As Daniel H. Pink explains in his new and paradigm-shattering book DRIVE: THE SURPRISING TRUTH ABOUT WHAT MOTIVATES US, the secret to high performance and satisfaction in today's world is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does - and how that affects every aspect of our lives. He demonstrates that while the old-fashioned carrot-and-stick approach worked successfully in the 20th century, it's precisely the wrong way to motivate people for today's challenges. In DRIVE, he reveals the three elements of true motivation: AUTONOMY - the desire to direct our own lives; MASTERY - the urge to get better and better at something that matters; PURPOSE - the yearning to do what we do in the service of something larger than ourselves. Along the way, he takes us to companies that are enlisting new approaches to motivation and introduces us to the scientists and entrepreneurs who are pointing a bold way forward. DRIVE is bursting with big ideas - the rare book that will change how you think and transform how you live.

Cambridge International AS and A Level Business Studies Revision Guide has been designed specifically to meet the requirements of the Cambridge syllabus.

This book addresses current research trends and practice in industrial design. Going beyond the traditional design focus, it explores a range of recent and emerging aspects concerning service design, human-computer interaction and user experience design, sustainable design, virtual & augmented reality, as well as inclusive/universal design, and design for all. A further focus is on apparel and fashion design: here, innovations, developments and challenges in the textile industry, including applications of material engineering, are taken into consideration. Papers on pleasurable and affective design, including studies on emotional user experience, emotional interaction design and topics related to social networks make up a major portion of the contributions included in this book, which is based on five AHFE 2020 international conferences (the AHFE 2020 Virtual Conference on Design for Inclusion, the AHFE 2020 Virtual Conference on Interdisciplinary Practice in Industrial Design, the AHFE 2020 Virtual Conference on Affective and Pleasurable Design, the AHFE 2020 Virtual Conference on Kansei Engineering, and the AHFE 2020 Virtual Conference on Human Factors for Apparel and Textile Engineering) held on July 16–20, 2020. Thanks to its multidisciplinary approach, it provides graduate students, researchers and professionals in engineering, architecture, computer and materials science with extensive information on research trends, innovative methods and best practices, and a unique bridge fostering collaborations between experts from different disciplines and sectors.

This fresh new text introduces IB from a truly global and contemporary perspective. Packed with case studies drawn from an impressive spectrum of countries, International Business enables students to link theory with practice and encourages critical thinking.
