Renowned French otolaryngologist Jean Aitibol, a lifetime student of the human voice, takes readers on an unforgettable odyssey spanning man's first use of voice through the acquisition of language to the use of voice as an expression of self. With great wit and charm, Dr. Aitibol's narrative encompasses everything from the physiological, from explaining the workings of the voice to celebrating the human voice's highest achievements. He describes a fascinating history of the voice, its origins, its course since the Homo Sapiens' first sentences, its episodes of hoarseness, and its achievements, from the newborn cry to the coloratura soprano, from the impersonator to the ventriloquist. After exploring what is known about the voice, Dr. Aitibol tells us what our voices are capable of. He examines what he describes as "the magic of the voice": the voice as a fingerprint, a reflection of our personality in expressing our sex and sexuality. A great portion of this odyssey is devoted to singing and singers, both to the complexity of singing in general and to lyrical singing, the intricacies of which requires participation of the mechanical, emotional, and cerebral systems. The mysteries of the voice unfold as Dr. Aitibol guides readers through the latest physiological and pathological research using examples of historical figures', patients', and celebrities' voices to explain how the ways in which the body moves affect the way the voice sounds and how vocal quality is unique to each human being. A unique tour de force of the human vocal instrument, Odyssey of the Voice changes the way we think about our voices.

In his compelling new work of fiction, Aravind Adiga has imagined the small Indian city of Kittur, an everytown nestling on the coast south of Goa and north of Calicut. Through the myriad and distinctive voices of its inhabitants, an entire Indian world comes vividly and unforgettably to life. From a middle-aged Communist to an Islamic terrorist; from the young children of a Tamil building-site worker to a privileged and alienated schoolboy; from an idealistic journalist to a Brahmin housemaid, Adiga has produced a microcosm of Indian life in the 80s, the years between the assassinations of Indira Gandhi and her son Rajiv. Muslim, Christian and Hindu, high-caste and low-caste, rich and poor: all of Indian life - the 'sorrowful parade of humanity' - is here. Journeying through Kittur's streets and schoolyards, bedrooms and businesses, its inner workings and outer limits, Adiga conjures a remarkable fictional landscape. Sizzling with acid observations, and textured with wicked humour and gentle humanity, Between the Assassinations is a triumph of voice and imagination.

The work of a leading figure in the transition from a predominantly European-centered 19th-century philosophy to a new American philosophy, this volume presents a full and definitive expression of the pragmatist epistemology. This review was prepared jointly by the World Bank Group and the World Food Programme (WFP), building on the comparative advantages of both organizations. It examines the evidence base for school feeding programs with the objective of better understanding how to develop and implement effective school feeding programs in two contexts: a productive safety net, as part of the response to the social shocks of the global food, fuel and financial crises, and a fiscally sustainable investment in human capital, as part of long-term global efforts to achieve Education for All and provide social protect. Describes the daily activities of being a dinosaur farmer, from waking up early to taking care of the animals, big and small.

The Fall of the House of Usher and Other Writings is a collection that displays the full force of Edgar Allen Poe's mastery of both Gothic horror and the short story form. This Penguin Classics edition is edited with an introduction and notes by David Galloway. This selection of Poe's critical writings, short fiction and poetry demonstrates his intense interest in aesthetic issues, and the astonishing power and imagination with which he probed the darkest corners of the human mind. 'The Fall of the House of Usher' is a slow-burning Gothic horror, describing the final hours of a family tormented by tragedy and the legacy of the past. In 'The Tell-Tale Heart', a murderer's insane delusions threaten to betray him, while stories such as 'The Pit and the Pendulum', 'The Raven' and 'The Cask of Amontillado' explore extreme states of decadence, fear and hate. This is the softcover reprint of the English translation of 1972 (available from Springer since 1989) of the first 7 chapters of Bourbaki's 'Algèbre commutative'. It provides a very complete treatment of commutative algebra, enabling the reader to go further and study algebraic or arithmetic geometry. The first 3 chapters treat in succession the concepts of flatness, localization and completions (in the general setting of graduations and filtrations). Chapter 4 studies associated prime ideals and the primary decomposition. Chapter 5 deals with integers, integral closures and finitely generated algebras over a field (including the Nullstellensatz). Chapter 6 studies valuation (of any rank), and the last chapter focuses on divisors (Krull, Dedekind, or factorial domains) with a final section on modules over integrally closed Noetherian domains, not usually found in textbooks. Useful exercises appear at the ends of the chapters. Le manuel de l'élève des premières technologiques de la collection Indice, pour motiver les élèves dans leur diversité. Alcools, first published in 1913 and one of the few indispensable books of twentieth-century poetry, provides a key to the century's history and consciousness. Champion of "cubism", Guillaume Apollinaire (1880-1918) fashions in verse the sonic equivalent of what Picasso accomplishes in his cubist works: simultaneity. Apollinaire has been so influential that without him there would have been no New York School of poetry and no Beat Movement. This new translation reveals his complex, beautiful, and wholly contemporary poetry. Printed with the original French on facing pages, this is the only version of this seminal work of French Modernism currently available in the United States.

The novel that became an award-winning play and a major motion picture and that has charmed generations of readers, Carson McCullers's classic The Member of the Wedding is now available in small-format trade paperback for the first time. Bolstered by lively conversations with her house servant, Berenice, and her six-year-old male cousin — not to mention her own unbridled imagination — Frankie takes on an overly active role in the wedding, hoping even to go, uninvited, on the honeymoon, so deep is her desire to be the member of something larger, more accepting than herself. "A marvelous study of the agony of adolescence" (Detroit Free Press). The Member of the Wedding showcases Carson McCullers at her most sensitive, astute, and lasting best.
