In Western political discourse, Yugoslavia was frequently referred to as a “buffer zone,” its independence from the Soviet bloc being the single most salient factor making it politically atypical. Another enduring metaphor, that of a crossroads between East

and West, was often invoked to describe Yugoslavia's heterogeneous culture, owing as much to its geographic position in central/southeast Europe as to its multinational makeup. Yet, if not solely for its socialist brand of communism, the Balkan-Slavic identity of Yugoslavia's traditional culture shaped the perception of the country as a part of the east European cultural bloc. Like other cultures on the map of Slavic traditions, Yugoslavia presented the casual observer with a colorful variety of village music, ethnic customs and a proliferating national folklore engendered in festival re-

Despite enormous evidence of vanishing historic practices, the music rooted in the socioeconomic milieu of peasant society remained the main focus of ethnomusico-logical research interest. Yugoslavia's contemporary culture, originating in such modern institutions as mass media and the market place, did not receive comparable attention. Impossible Histories is the first critical survey of the extraordinary experiments in the arts that took place in the former Yugoslavia from the country's founding in 1918 to its breakup in 1991. The combination of Austro-Hungarian, French, German, Italian, and Turkish influences gave Yugoslavia's avant-gardes a distinct character unlike those of

other Eastern and Central European avant-gardes. Censorship and suppression kept much of the work far from the eyes and ears of the Yugoslav people, while language barriers and the inaccessibility of archives caused it to remain largely unknown to Western scholars. Even at this late stage in the scholarly investigation of the avant-garde, few Westerners have heard of the movements Belgrade surrealism, signalism, Yugo-Dada, and zenitism; the groups Alfa, Exat 51, Gorgona, OHO, and Scipion Nasice Sisters Theater; or the magazines Danas, Red Pilot, Tank, Vecnost, and Zvrk. The pieces in this

collection offer comparative and interpretive accounts of the avant-gardes in the former Yugoslavian countries of Croatia, Serbia, and Slovenia. The book is divided into four sections: Art and Politics; Literature; Visual Art and Architecture; and Art in Motion (covering theater, dance, music, film, and video). All of the contributors live in the region and many of them participated in the movements discussed. The book also reprints a selection of the most important manifestos generated by all phases of Yugoslav avant-garde activity.

This book investigates the extent to which social class has changed in Eastern Europe since the fall of communism. Based on extensive original research, the book discusses how ideas about class are viewed by both working class and middle class people. The book examines how such people 's social identities are shaped by various factors including economic success, culture and friendship networks. The present class situation in Eastern Europe is contrasted to what prevailed in Communist times, when societies were officially classless, but nevertheless had Communist party elites.

"Word and Image" invokes and honors the scholarly contributions of Gary Marker. Twenty scholars from Russia, the United Kingdom, Italy, Ukraine and the United States examine some of the main themes of Marker's scholarship on Russia--literacy, education, and printing; gender and politics; the importance of visual sources for historical study; and the intersections of religious and political discourse in Imperial Russia. A biography of Marker, a survey of his scholarship, and a list of his publications complete the volume.
