Veteran script consultant Jill Chamberlain discovered in her work that an astounding 99 percent of first-time screenwriters don't know how to tell a story. These writers may know how to format a script, write snappy dialogue, and set a scene. They may have interesting characters and perhaps some clever plot

devices. But, invariably, while they may have the kernel of a good idea for a screenplay, they fail to tell a story. What the 99 percent do instead is present a situation. In order to explain the difference, Chamberlain created the Nutshell Technique, a method whereby writers identify eight dynamic, interconnected elements that are required to successfully tell a story. Now, for the first time, Chamberlain presents her unique method in book form with The Nutshell Technique: Crack the Secret of Successful Screenwriting. Using easy-to-follow diagrams (“nutshells”), she thoroughly explains how the Nutshell Technique can make or break a film script. Chamberlain takes readers step-by-step

through thirty classic and contemporary movies, showing how such dissimilar screenplays as Casablanca, Chinatown, Pulp Fiction, The Usual Suspects, Little Miss Sunshine, Juno, Silver Linings Playbook, and Argo all have the same system working behind the scenes, and she teaches readers exactly how to apply these principles to their own screenwriting. Learn the Nutshell Technique, and you'll discover how to turn a mere situation into a truly compelling screenplay story.

An original novel by JAMES A. MOORE, this official prequel sets the stage for the blockbuster film THE PREDATOR. For centuries Earth has been visited by warlike creatures that stalk mankind's finest warriors.

common people's cause. Zorro without the mask is Don Alejandro de la Vega, wealthy landowner and as much of a family man as his charge will allow. As California stands on the brink of statehood, Alejandro is not sure who he will be when the need for the mask fades, but his lovely wife, Elena, is certain he will be the devoted husband and father she and their son, Joaquin, have patiently waited for. But ruthless men in a deadly conspiracy of power have different ideas. As they threaten the future of a still-young nation, they also set Alejandro's two lives in collision, drawing his beloved Elena into a perilous world of shadows and lies. Could the mask ultimately cost the one they call Zorro everything and everyone he holds most dear? Or will the Zorro legacy and de la Vega family prevail?

In 1854, a Cherokee Indian called Yellow Bird (better known as John Rollin Ridge) launched in this book the myth of Joaquin Murieta, based on the California criminal career of a 19th century Mexican bandit. Today this folk hero has been written into state histories, sensationalized in books, poems, and articles throughout America, Spain, France, Chile, and Mexico, and made into a motion picture. The Ridge account is here reproduced from the only known copy of

the first edition, owned by Thomas W. Streeter, of Morristown, New Jersey. According to it, the passionate, wronged Murieta organized an outlaw company numbering over 2,000 men, who for two years terrorized gold-rush Californians by kidnapping, bank robberies, cattle thefts, and murders. So bloodthirsty as to be considered five men, Joaquin was aided by several hardy subordinates, including the sadistic cutthroat, "Three-Fingered Jack." Finally, the state legislature authorized organization of the Mounted Rangers to capture the outlaws. The drama is fittingly climaxed by the ensuing chase, "good, gory" battle, and the shocking fate of the badmen.
