

Tkt Module 1 Past Paper 2008

Banter, chit-chat, gossip, natter, tete-a-tete: these are just a few of the terms for the varied ways in which we interact with one another through conversation. David Crystal explores the factors that motivate so many different kinds of talk and reveals the rules we use unconsciously, even in the most routine exchanges of everyday conversation. We tend to think of conversation as something spontaneous, instinctive, habitual. It has been described as an art, as a game, sometimes even as a battle. Whichever metaphor we use, most people are unaware of what the rules are, how they work, and how we can bend and break them when circumstances warrant it.

This is 'the' teacher training course for teachers and trainee teachers preparing for the Cambridge ESOL Teaching Knowledge Test (TKT) Modules 1, 2 and 3 or other initial teacher training qualifications.

Teaching Grammar Creatively is a practical new resource book that offers a variety of lessons and activities for everyday use in English language classes. It aims to stimulate students' imagination, humour and creativity and increase the effectiveness of grammar practice.

The book offers more than 50 complete lessons covering a wide range of grammar structures, learner levels, and age groups. Each lesson is divided into two main sections: Language Awareness Activities and Creative Grammar Practice. The Language Awareness Activities are designed to introduce and provide initial practice of items that may still be unfamiliar to students. The Creative Grammar Practice section provides ideas for a deeper and more personalised familiarisation with these items, always with an element of individual creativity.

Each lesson ends with the creation of a learner text – a permanent and original record of the grammar, in the form of a story or a poem for example.

A course aimed at ELT managers (eg. Directors and Assistant Director of Studies) and candidates undertaking the Cambridge ESOL International Diploma in Language Teaching Management (IDLTM).

Provides test-taking strategies, skill-building exercises, sample essays and speaking responses, and practice tests.

This book raises the issue of what a teacher needs to know about English in order to teach it effectively. It leads teachers to awareness of the language through a wide range of tasks which involve them in analysing English to discover its underlying system.

This is an updated version of 'the' teacher training course for teachers and trainee teachers preparing for the Cambridge ESOL Teaching Knowledge Test (TKT) Modules 1, 2 and 3 or other initial teacher training qualifications.

Motivation is a vital element in learning, and the most commonly cited explanation for success or failure in language learning. Jill Hadfield and Zoltán Dörnyei present a new theory of motivation centred around the notion of the " ?Ideal Future Language Self", arguing that if students have a rich and inspiring vision of themselves as successful future language learners and users, they will be motivated to work hard to actualise the vision and become that learner. This book: - integrates the latest research in language teaching with innovative classroom practice - offers suggestions on how the various components of the theory could be structured into a teaching sequence - includes a variety of imaginative classroom activities designed to aid both student and teacher in creating and actualising the Ideal Self through visualisation, goal setting, task identification and planning, and a selection of appropriate learning strategies. - shows how teachers can undertake motivation-related research in their own classrooms. This is an ideal guide to and activity book for the theory and practice of motivation in language learning for students and teachers alike.

The TKT Course Modules 1, 2 and 3Cambridge University Press

In designing a successful English for Specific Purposes (ESP) course, an ESP lecturer must research the professional setting and in turn analyze, abstract and synthesize its linguistic characteristics. Expert vocabulary, typical syntactic structures, relevant morphological word formation processes, exemplary text organization and both written and spoken stylistics are no longer taught with little functional relevance, instead they are approached from a subject-specific perspective. While designing and/ or compiling teaching and learning material, an ESP lecturer must decide upon the appropriate teaching methodology and pedagogy in order to ensure that the course in its entirety simulates a particular professional situation. Only if the course is successful in this aim, will ESP learners be able to quickly engage in uninhibited communication and improve job performance in their field of work, whether that be in tourism or aviation. Although many professional settings share certain characteristics, they are nevertheless unique and often require different approaches. For this reason, there is little or no ready-made teaching material or methodological approaches when it comes to ESP teaching. A dedicated ESP lecturer caters for those idiosyncrasies doing a minute, multifaceted investigation into the linguistic characteristics of the relevant professional domain. Bringing together a collection of essays, this edited volume reveals the variety, depth, and quality of the ESP research and its convergence across different professional disciplines.

"Learner English is a well-established and successful reference book for teachers of British English. This new edition builds on the success of the original book. It has been rewritten and extended to provide information on the typical problems and error-patterns of a wide range of learners of English from particular language backgrounds. It compares the relevant features of the students' own language with English, helping teachers to predict and understand the problems that students have. The new book has twenty-two chapters dealing with learners who speak Dutch-Flemish, Scandinavian languages (except Finnish), German, French, Italian, Spanish, Catalan, Portuguese, Greek, Russian, Polish, Farsi, Arabic, Turkish, South Asian languages (with a separate chapter on Dravidian languages), West African languages, Swahili, Malay/Indonesian, Japanese, Chinese, Korean and Thai. An audio cassette and audio CD are available separately. These contain authentic examples of the various accents described in the book."

A comprehensive and extensively researched overview of key issues in language teaching today. This essential text for English language teachers surveys a broad range of core topics that are important in understanding contemporary approaches to teaching English as a second or international language, and which form the content of many professional development courses for language teachers. A wide range of issues is examined, including a consideration of the nature of English in the world, the way the English teaching profession works, the development of teaching methods, the nature of classroom teaching, teaching the four skills, teaching the language system, and elements of a language program.

Using an innovative framework, this book provides the rationale, strategies, and tools to create optimal blended language learning courses.

This text brings together the work of 15 elementary education experts who support an integrative approach to educating second language children. The paperback edition is a collection of articles from fourteen elementary education experts who espouse an integrative approach to second language education - one that goes beyond language

teaching methodology - to cover a wide range of issues affecting the academic and social success of language minority children. The volume deals not only with second language development, but with the development of the whole child. Rather than focusing on language instruction, it addresses the entire curriculum, and instead of restricting itself to classroom learning, it examines the role of the school, family, and community.

"The growth in English language teaching worldwide and the related increase in teacher training programmes of all kinds highlight the need for greater accountability in the assessment of teachers. The need for formal summative assessment has taken on greater importance in training programmes and requires procedures which do not always sit easily with the development process, while transparency of assessment procedures is also increasingly demanded by the candidates themselves. This edited volume discusses key issues in assessing language teachers' professional skills and knowledge and provides case study illustrations of how teacher knowledge and teaching skills are assessed at pre-service and in-service levels within the framework of the Cambridge English Teaching Qualifications. The volume provides: - discussion of ways in which the changing nature of English language teaching has impacted on teacher education and assessment - examples of specific assessment procedures for both teaching knowledge and practical classroom skills - accounts of the ways in which the Cambridge English Teaching Qualifications have been integrated into and adapted for local contexts. This is the first volume of its kind wholly dedicated to language teacher assessment and as such will be of interest to language teachers and teacher educators as well as to researchers and postgraduate students"--

CLIL (Content and Language Integrated Learning) has emerged since the millennium as a major trend in education. Written by Do Coyle, Philip Hood and David Marsh and drawing on their experience of CLIL in secondary schools, primary schools and English language schools across Europe, this book gives a comprehensive overview of CLIL. It summarises the theory which underpins the teaching of a content subject through another language and discusses its practical application, outlining the key directions for the development of research and practice. This book acknowledges the uncertainty many teachers feel about CLIL, because of the requirement for both language and subject knowledge, while providing theoretical and practical routes towards successful practice for all.
