nations. It also explores the impact tourism plays in the biophysical environment such as the issue of climate change. While highlighting topics such as environmental

# Read Book Tourism Carrying Capacity Assessment And Environment The

justice, ecosystems, and  
ecotourism, this book is  
ideally designed for  
academicians,  
policymakers,  
environmentalists, tourism  
professionals, and

# Read Book Tourism Carrying Capacity Assessment And Environment The

graduate-level students seeking current research on the environmental and economic impacts of tourism.

Carrying capacity concept is viewed as a weak

# Read Book Tourism Carrying Capacity Assessment And Environment The

concept in tourism management and planning although the original theory was seen as a remarkable solution in controlling the impacts of tourism towards the

# Read Book Tourism Carrying Capacity Assessment And Environment The

environment. However, due to its complexity and vagueness in indicating attributes and criteria to govern the framework, this theory received big criticism among scholars.

# Read Book Tourism Carrying Capacity Assessment And Environment The

Hence, this study was carried out to evaluate the importance of indicators over another to produce a hierarchical structure of environmental tourism carrying capacity

# Read Book Tourism Carrying Capacity Assessment And Environment The

(ETCC) framework for Royal  
Belum State Park (RBSP).  
ETCC is a site-specific  
way of implementation,  
where the indicators  
should be developed to  
solve the issues occurring

# Read Book Tourism Carrying Capacity Assessment And Environment The

on the site rather than being generalized for all sites. The methodology applied in this study is through triangulation approach which involves a process of identifying

# Read Book Tourism Carrying Capacity Assessment And Environment The

relevant indicators via content analysis, indicator screening via questionnaire survey, determining appropriate stakeholders via stakeholder analysis and

# Read Book Tourism Carrying Capacity Assessment And Environment The

evaluating the significant indicators via structured interview. The data collected were then analysed by using analytic hierarchy process (AHP) method rooted in the

# Read Book Tourism Carrying Capacity Assessment And Environment The

multicriteria decision making (MCDM) process. MCDM creates, evaluates and implements strategic decision deals with the procedures of choosing, ranking and sorting. The

# Read Book Tourism Carrying Capacity Assessment And Environment The

AHP technique is chosen amongst other available methods because it is widely applied in MCDM domains and has the ability to unveil relative priorities through

# Read Book Tourism Carrying Capacity Assessment And Environment The

pairwise comparison. From the study, it has been discovered that biophysical environment dimension (0.369) is the most important against tourism facility

# Read Book Tourism Carrying Capacity Assessment And Environment The

management (0.361), social-cultural (0.167) and political-economics dimension (0.103).

Likewise, the top four indicators representing the four dimensions are

# Read Book Tourism Carrying Capacity Assessment And Environment The

wildlife threatened species (0.186), tourist satisfaction level (0.259), policy and regulations by park manager (0.300) and community profits (0.528).

# Read Book Tourism Carrying Capacity Assessment And Environment The

Based on these findings, it can be concluded that prioritizing the indicators could enhance the efficiency of ETCC, particularly in the implementation stage, by

# Read Book Tourism Carrying Capacity Assessment And Environment The

engaging appropriate stakeholders to participate in the data collection. This study also proved the theory that ETCC is a tailor made framework that works

ecosystems, local economies and local people. The purpose of the first section of this book is therefore to introduce the concept of marine ecotourism and to draw out some of the key issues involved in ensuring that marine ecotourism is developed in a genuinely sustainable manner.

## Read Book Tourism Carrying Capacity Assessment And Environment The

The second section then discusses some practical experiences of planning and managing marine ecotourism from around the world, identifying common problems and discussing what might constitute good practice in addressing those problems.
